

Nattan **NEPPER**

Engineering internship | From February to Jully 2027 (24 minimum weeks to complete)

EDUCATION BACKGROUND

August 27, 2026 – January 2027: ERASMUS semester, Linköping University, Sweden

Aerodynamics – fluid mechanics
CFD on HPC (Linux)
Numerical Mechanics
Finite Element Analysis

2024-2027 : Automotive Engineering at ESTACA

Aerodynamics – CFD
Mechanics – engines
Car dynamics, suspension, running gear
Conception, electrification

2022-2024 : 2 years Undergraduate Diploma in Physics Measurements

Metrology
Data acquisition
Instrumentation

CONTACT

LAVAL, France
+33 0698233079
Driving licence + Car
nattan.nepper@estaca.eu
Nattan Nepper

HARD SKILLS

Language :

Anglais B2

Design and simulation :

SOLIDWORKS
certification CSWA : C-Y4WDUMXTVZ
3DEXPERIENCE
ONSHAPE
ANSYS FEM FLUENT
ANSA
ADAMS CAR

Programming and office automation:

MATLAB – SIMULINK – SIMSCAPE
PACK OFFICE

HOBBIES

Motorsport:
Following Grand Prix
Technological innovation

Track & field :
400m hurdles
Professional athlete
12h / week
French National championship

SOFT SKILLS

- Workaholic
- Rigorous
- Methodical
- Persevering
- Efficency
- Versatility
- Organizational skills

WORK EXPERIENCES

2026: Internship: Development of a test bench and a Brake-by-Wire system for motorsport testing & sizing of an air extractor

3D modeling
Sizing
Braking System / Deformations measuring
Report Writing
Thermal analysis and strength of materials
Fluid mechanics
3D scanning
Automotive testing

2025 : Automotive Mechanical **Internship** at *CITROËN* Reims Autobernard

Diagnose and repair mechanical systems
Analyze faults and identify technical solutions
Mechanical component intervention (engines, brakes, etc)
Prepare quotes

2024 : Metrology and Control **Internship** at *DEGOISEY* (Precision Parts)

Perform dimensional checks on over 500 mechanical parts
Use metrology tools and respect tolerances
Analyze measurements and tolerances, validations

PROJECTS / SCHOOL ASSOCIATION

2025-2026 : **Project**: Design and Realization of a Suspension for the Rear Axle of a Formula Vee, with the School *RACE* Association

Complete suspension system design (kinematics and dimensioning)
Write specifications
CAD SOLIDWORKS modeling
MATLAB – SIMSCAPE Simulation
ADAMS-CAR Simulation (20h)
System integration and validation
Write project report

2024-2025 : **Project**: Redesign of a Range of Road Trailers with *LIDER* (Road Trailer Designer)

Analyze customer needs and specifications
CAO SOLIDWORKS Modeling
Research 5 new technical solutions
Material characterization tests (impact and shock)
Write project report

2024 : Create a Mini Wind Tunnel

Write specifications
System sizing and selection
Sensor integration
CAO FREECAD modeling
